

## HOW TO GET AN ACCESS TO THE E-BOOKS ON SCIENTIFIC.NET

You can find the eBooks to which you have access under your account on our website.

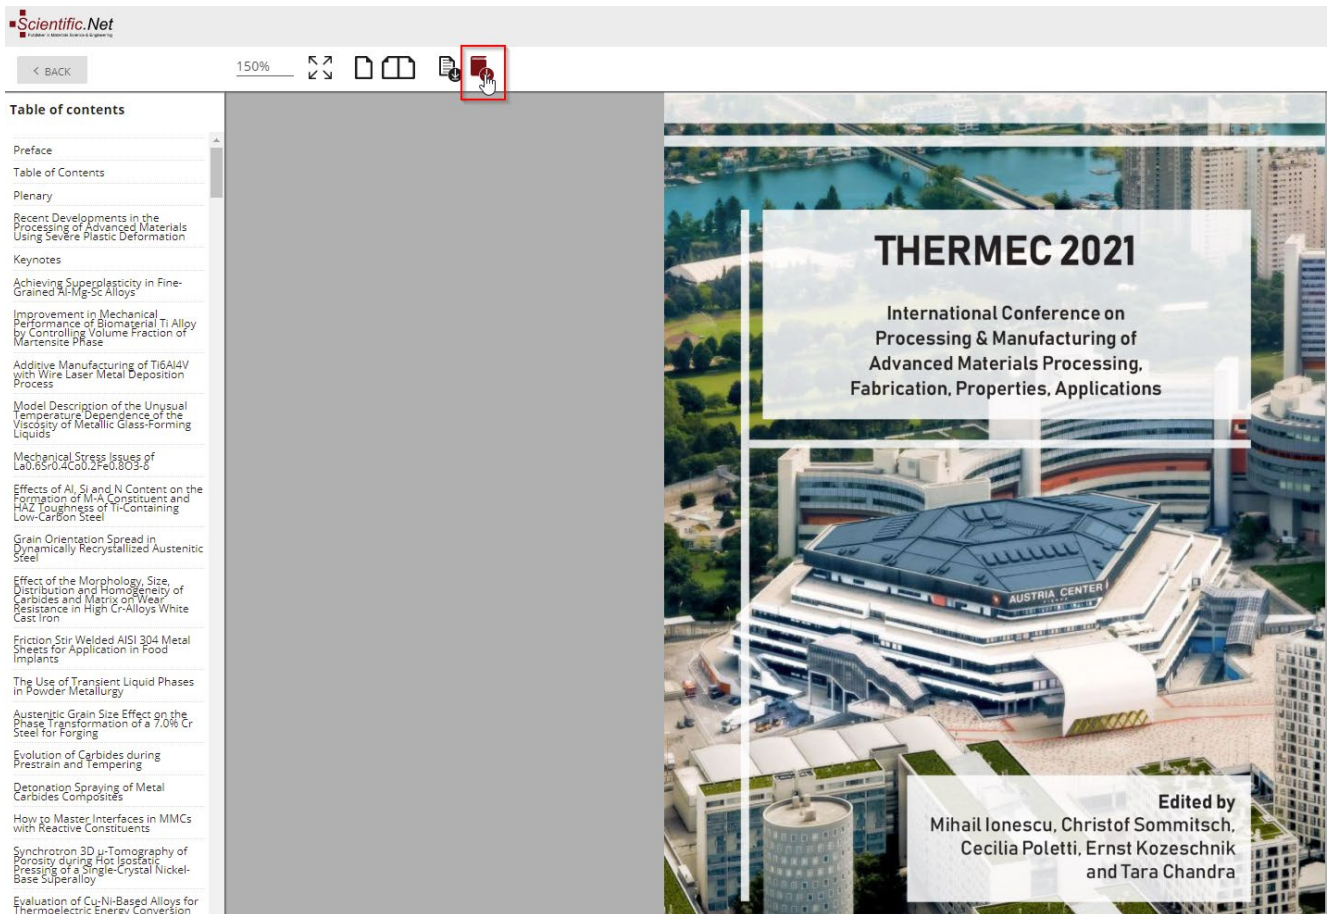

Log in to your account and click on the tabs “Access Status” or “My eBooks” under your user name at the right top of the page.

The screenshot shows the top navigation bar of the Scientific.Net website. The user is logged in as 'Mihail Ionescu'. The 'Access Status' menu is open, showing options: My Account, Access Status (highlighted), My eBooks, My Purchases, and Log Off. Below the navigation, the page title is 'Access status'. There are three links: 'Access granted to Volumes >', 'Access granted to Paper Titles >', and 'Access granted to eBooks v' (highlighted with a red box). Below this is a search bar for eBooks and a list of eBooks. The first entry is 'THERMEC 2021', edited by Mihail Ionescu, Christof Sommitsch, Cecilia Poletti, Ernst Kozeschnik and Tara Chandra, online since January 2021. The description states it is the 11th International Conference on advanced materials built upon the proven concept and continues the tradition of its seven predecessors, Japan - 1988, Australia - ...more.

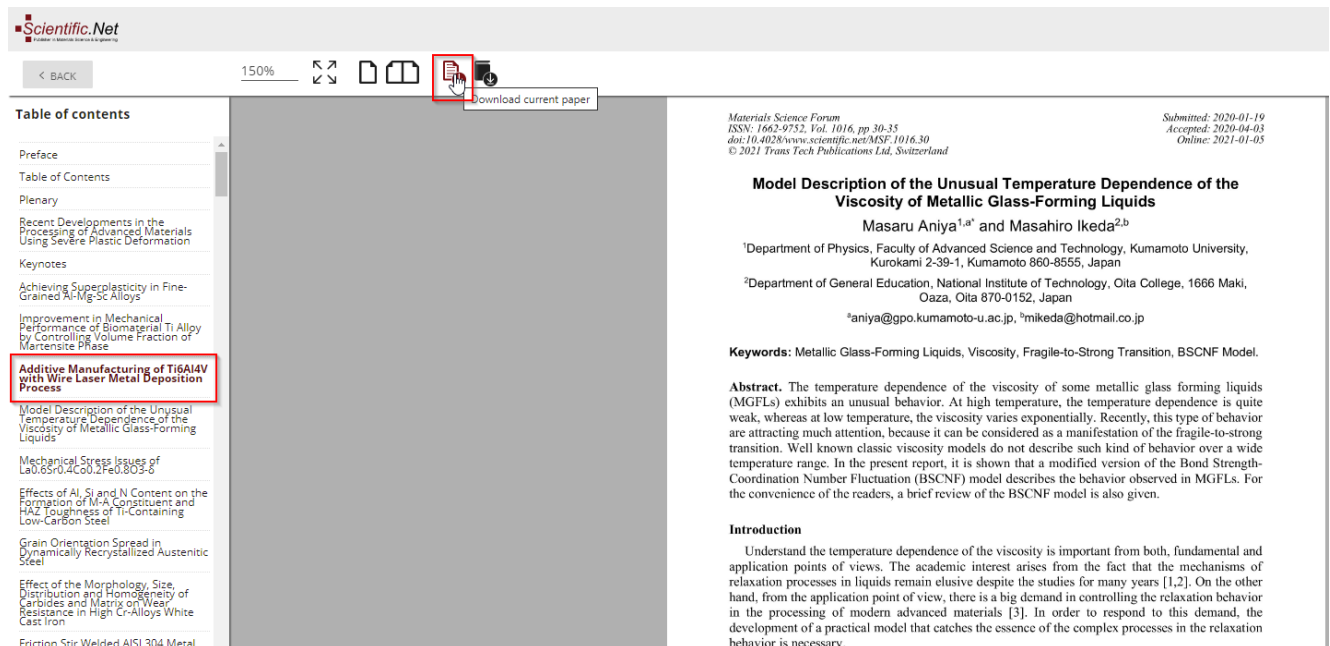

This screenshot is identical to the one above, but the 'My eBooks' option in the user menu is highlighted with a red box and a mouse cursor. The 'Access granted to eBooks v' link is also highlighted with a red box.

On the opened page, in the section “Access granted to eBooks.” click on the needed eBook title for further opening.

You can download the book as PDF file by clicking on the “Download book” icon at the top panel:

Or you can download a separate paper: choose a paper from the “Table of contents” list on the left side by clicking on it, further click on the “Download current paper” icon at the top panel :
